

We Beg To Announce

This is the only two speed mower made in this country and it deserves your closest examination. It is built of the very best of material and is assembled and adjusted with great care before leaving the factory. Its good points are many and it possesses many unique features not possessed by any other make of mower. It is highly accessible and practically all the repairs can be made right on the ranch without the assistance of a blacksmith.

THOMAS CROWN MOWERS

Have the exclusive advantage of being two speed mowers. No other mower has it. You do not have to run the mower all the time on the usual fast speed required for heavy cutting, because in all ordinary medium grass and hay and in light hay, weeds, etc., you can use a slower speed; and thus save a great deal of wear on the machine, making it last longer and keeping it in better running order.
